Re: Chester Water Authority Distribution System Flushing

Dear Ms. Miller,

Chester Water Authority (CWA) is planning to flush all public fire hydrants in the CWA distribution system in West Nottingham Township beginning the week of September 6, 2020. We are planning to conduct this work between the hours of 9:00 pm and 5:00 am Sunday night through Friday morning to minimize inconvenience to CWA customers. During this work, there could be brief periods when the water in the distribution system may become discolored. Distribution system water pressure may be depressed during the hydrant flushing activity.

Please let us know if you are aware of any businesses that have pressure sensitive fire alarm systems that may be affected by this work so that we can notify the businesses of our scheduled work.

If you have any questions, please contact me at 610-876-0940, extension 2248.

Very truly yours,

David J. Krupiak
Chief of Distribution
